Agenda

- Review of the current week
- Setting targets for next week
- Special Notes

Review of the Week

- All targets were handled in part or in full where applicable. Those not completed were carried forward to next week.
- Spacing of carrots was tried but didn't work out well. A new decision was made to leave them as they are until they grow.

Targets for Next Week

• Market research to be done for green beans and lettuce
• Create Bell Pepper Guide
• Aerating okra beds
• Aerating onion beds
• Aerating carrot beds
• Buy 5 more watering cans
• Buy more hoes and picks

Special Notes

- Suggestion to partner with other farmers in the future to maintain supply

- Dillon and Davy to do market research for green beans.
- Suggestion to buy hybrid early maturing green beans for next round.
- Lesson for lettuce: old leaves must be clipped off as the plant grows.
- Research on what pests attack green pepper
- Okra at risk of aphids attack.
- Suggestion was made to test out urea
- Need to reserve space for chilli nursery
